## COURSE INFO

- ▶ JUNE 24 - 28, 2024,  
MONDAY TO FRIDAY
- ▶ SALAMANCA, SPAIN
- ▶ MAX 24 PARTICIPANTS
- ▶ COURSE FEE: € 500 EURO  
INCLUDING LUNCHES  
AND A DINNER EVENING

## Introductory Course to EuroFlow Screening Panels

Clinical cytometrists new to EuroFlow will be trained in data analysis of the EuroFlow screening panels. Training of the manual and automated data analysis of clinical files will include the Acute Leukemia Orientation Tube (ALOT), Lymphocyte Screening Tubes (LST), Plasma Cell Dyscrasia (PCD), Small Samples Tube (SST) and Primary Immunodeficiency Orientation Tube (PIDOT) using Infinicyt™ software. Take the optional wet lab module to learn the correct use of EuroFlow Standard Operating Procedures for sample handling and instrument set-up.

Learn from the experts and develop your flowcytometric skills. Bring your diagnostic workflow to the highest standard and meet scientists from all over the world.
