

Sue Chow

University of Toronto and Princess Margaret Hospital, Toronto, Ontario

Sue Chow graduated in molecular biology from the University of Toronto, and developed a specialist interest in flow cytometry, joining David Hedley's lab as senior technician in 1990. David and Sue have published extensively in the area of flow cytometry applications, including the measurement of lipid peroxidation, antioxidant regulation, signal transduction analysis, and epigenetic targeting. Along with Vince Shankey, they have been teaching the annual research methods course held at Los Alamos and Bowdoin College for more than 10 years.
