

Unravelling the Complexity of Biology with High-Parameter Research

From cell types to tissue: analyse >40 functional and phenotypic markers simultaneously on the Helios and Hyperion™ Imaging System, powered by CyTOF® technology

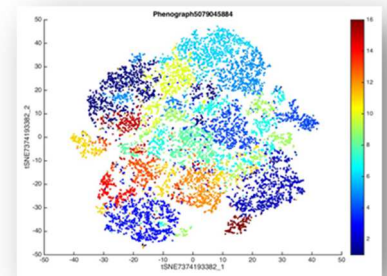

Speaker: Roberto Spada

Business Development Mass Cytometry EMEA, Proteomics, Fluidigm

Date: Monday, February 11th 2019, 3 p.m.

Location: Lecture Hall in the Institute of Biophysics of the Czech Academy of Sciences

Address: Královopolská 135, Brno

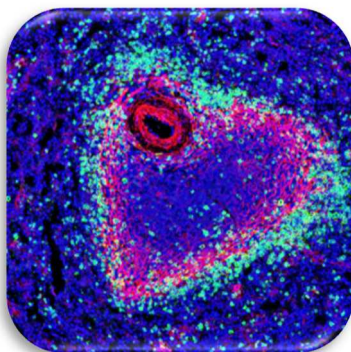

For free registration and more information:
